>>> WHAT IS GLOBAL FOOD MEETINGS ISTANBUL?

Global Food Meetings Istanbul (GFM Istanbul) is a supply chain event in Türkiye for Food Industry. In the event, buyers and suppliers will get together for two days in pre-scheduled meetings in line with their needs. GFM Istanbul is where needs meet with products, technologies and capabilities without the distractions in traditional exhibitions. So it saves time as well as cost.

With its specially designed B2B system both buyers and suppliers can identify the products they supply & seek while sending requests to the relevant companies to organize pre-scheduled meetings. Each company will be able to hold at least 15 meetings per day in accordance with their preferences at the highest level of quality.
